

I was shocked and appalled to hear what Sinclair Broadcasting company was planning to do. They don't own the air waves, they get to use them as a privilege. The American people do not deserve to have propaganda shoved down their throats two weeks before such a critical election.

I think the only thing worse than Sinclair's attempt at running this film is the fact that they are trying to pass it off as news. They are insulting the intelligence of the American people and they deserve to lose their rights to run media.

I am pleading with you not to allow a select few people to force their beliefs on others under the guise of a legitimate news story.

Thank you very much.

Sincerely,

Mike Valle
